Approv	ral of Service Delivery and Budget Implementation Plan	42

1. Introduction

The strategic direction that the Xhariep District Municipality is undertaking is set out in its Integrated Development Plan (IDP). The plan has been reviewed for the 2013/14 financial year in conjunction with the stakeholders and community and the implementation of the Xhariep IDP is supported by the Medium Term Revenue and Expenditure Framework (MTREF) budget.

The IDP 5-year strategic direction has not changed, and the Xhariep District Municipality continues on the path of infrastructure driven local economic growth centred on municipal investment grant programmes and projects. The services that the Municipality provides and the investment in infrastructure will make the Municipality globally safe and attractive to live work and invest. Investment supports and drives the development path and brings the opportunities of job creation that will ultimately improve social and economic livelihoods of the residents of Xhariep. The development of Service Delivery and Budget Implementation Plans (SDBIPs) is a requirement under Municipal Finance Management Act (MFMA) and gives effect to the municipality's Integrated Development Plan (IDP) and annual budget. The SDBIP is an expression of the objectives of the Municipality, in quantifiable outcomes that will be implemented by the administration for the financial period from 1 July 2013 to 30 June 2014. The SDBIP includes the service delivery targets and performance indicators for each quarter that should be linked to the performance agreements of senior management.

These are integral to the implementation and entrenchment of our performance management system. The SDBIP facilitates accountability and transparency of the municipal administration and managers to the Council and Councillors to the community. It also fosters the management, implementation and monitoring of the budget, the performance of top management and the achievement of the strategic objectives as laid out in the IDP. The SDBIP enables the Municipal Manager to monitor the performance of senior managers, the mayor to monitor the performance of the municipal manager and for the community to monitor the performance of the municipality as each activity contains outputs, outcomes and timeframes. The SDBIP is compiled on an annual basis and includes a 3-year capital budget programme.

The SDBIP is yet another step forward to increasing the principle of democratic and accountable (local) government as enshrined in Section 152(a) of the Constitution.

The Municipality developed four strategic priority areas from which Municipal-wide development were drawn and cascaded to Directorates and Sub-directorates in a way of compilation of directorates SDBIPs (business plans) underpinned by various programmes and projects with necessary resource allocations. Development objectives are measured through key performance indicators at every level, and continuously monitored throughout the year. The SDBIP is in essence the management and implementation tool, which sets in-year information such as quarterly service delivery and monthly budget targets and links each service delivery output to the budget of the municipality. It further indicates the responsibilities and outputs for each of the senior managers and the top management team, the resources to be used and the deadlines set for the relevant activities.

The SDBIP is a layered plan, with the top layer dealing with consolidated service delivery targets, and linking such targets to top management (National Treasury MFMA Circular No. 13 of the Municipal Finance Management Act No. 56 of 2003). This is high-level and strategic in nature and is required to be tabled in Council. Only this top layer of the SDBIP is published as the institutional SDBIP. Such high-level information should also include per ward information, particularly for key expenditure items on capital projects and service delivery which will enable each Ward Councillor and Ward Committee to oversee service delivery in their ward. The top management is then expected to develop the next (lower) layer of detail of the SDBIP, by providing more detail on each output for which they are responsible for, and breaking up such outputs into smaller outputs and linking these to each middle-level and junior manager.

2. Legislative Requirements

In terms of Section 53 (1) (c) (ii) of the MFMA, the SDBIP is defined as a detailed plan approved by the mayor of a municipality for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate the following:

- (a) projections for each month of -
 - (i) revenue to be collected, by source; and
 - (ii) operational and capital expenditure, by vote
- (b) service delivery targets and performance indicators for each quarter, and
- (c) other matters prescribed

3. The SDBIP Concept

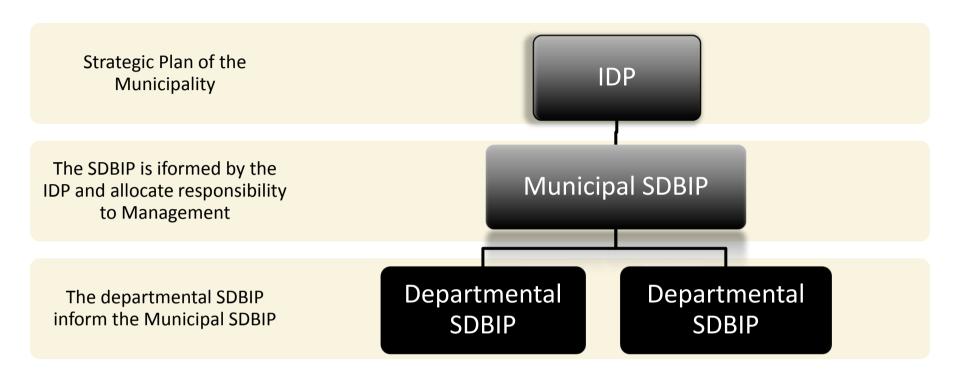

The SDBIP is a mechanism that ensures that proper alignment between the municipality's IDP and the budget. It is central to the monitoring and evaluation of the performance of the Municipality in implementing its IDP and Budget. Depicted below is the process by which council adopts the IDP and Budget and attached measurable milestones on what the municipality has to deliver (the SDBIP).

The SDBIP constitutes a contract between the administration, Council and the community. It ensures that all processes as mapped in the IDP are aligned. It provides a focus on outputs, outcomes and inputs and enables proper performance management and monitoring of senior management. The SDBIP consists of a one year detailed performance plan; a three year capital works plan, as well as financial projections of income and expenditure. It outlines key performance indicators and targets that are linked to key performance areas derived from the IDP. Whilst the budget sets yearly service delivery and budget targets (revenue and expenditure per vote), it is imperative that in-year mechanisms are able to measure performance and progress on a continuous basis. Hence, the end-of-year targets must be based on quarterly and monthly targets, and the municipal manager must ensure that the budget is built around quarterly and monthly information. Being a start-of-year

planning and target tool, the SDBIP gives meaning to both in-year reporting in terms of section 71 (monthly reporting), section 72 (mid-year report) and end-of-year annual reports.

The key performance indicators and targets, and the budget projections included in the various Departmental SDBIPs inform the contents of the municipal SDBIP. These Plans are compiled to link specific service delivery responsibilities in the IDP to each of the senior managers (section 56 managers) of the municipality. The Performance Agreement of the responsible section 56 manager will then be aligned with the contents of the Departmental SDBIP for which he or she is responsible. Because the SDBIP contains particulars of both service delivery objectives and targets, as well as the budget of that specific Department, it serves as a performance plan against which the activities of the Department could be monitored and assessed.

Operational guidelines for the compilation of the municipal SDBIP, and Departmental SDBIPs could be found in MFMA Circular No. 13. The contents of SDBIP would therefore be based on the guidelines of the indicated Circular.

It is important that the various Departmental SDBIPs must relate to the IDP of the municipality. The intention is that the SDBIPs for each of the Departments in the municipality must indicate what the specific section 56 managers (and his / her Department) are going to do to implement the IDP. The Departmental SDBIP must also relate to the budget for the specific year, because the budget will determine how much money is available to do the things as anticipated in the SDBIP.

4. Reporting on the SDBIP

This section covers reporting on the SDBIP as a way of linking the SDBIP with the oversight and monitoring operations of the municipality.

A series of reporting requirements are outlined in the MFMA. Both the mayor and the accounting officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports. The reports then allow the Councillors' of the municipality to monitor the implementation of service delivery programs and initiatives across the municipality.

4.1 Monthly Reporting

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. The accounting officer of a municipality must report in terms of Section 71 no later than 10 working days, after the end of each month.

Reporting must include the following:

- (i) actual revenue, per source;
- (ii) actual borrowings;
- (iii) actual expenditure, per vote;
- (iv) actual capital expenditure, per vote;
- (v) the amount of any allocations received

If necessary, explanation of the following must be included in the monthly reports:

(a) any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote

- (b) any material variances from the service delivery and budget implementation plan and;
- (c) any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain within the municipalities approved budget

4.2 Quarterly Reporting

Section 52 (d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the mayor's quarterly report.

4.3 Mid-year Reporting

Section 72 (1) (a) of the MFMA outlines the requirements for midyear reporting. The accounting officer is required by the 25th January of each year to assess the performance of the municipality during the first half of the year taking into account –

- (i) the monthly statements referred to in section 71 of the first half of the year;
- (ii) the municipalities service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- (iii) the past year's annual report, and progress on resolving problems identified in the annual report; and
- (iv) the performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities.

Based on the outcomes of the mid-year budget and performance assessment report, an adjustments budget may be tabled if actual revenue or expenditure amounts are materially different from the projections contained in the budget or the SDBIP. The SDBIP is also a living document and may be modified based on the mid-year performance review. Thus the SDBIP remains a kind of contract that holds the Municipality accountable to the community.

5. Linking the IDP to the Budget

Integrated Development Planning requires many different planning processes to be brought together and coordinated. In terms of linking service plans or service delivery and budget implementation plans of the individual directorate in the Municipality with the other planning processes in the IDP, the directorates routinely produce operational plans, capital plans, annual budgets, institutional and staffing plans, etc to take the IDP forward. Clearly it is not feasible to include all of this detail within the IDP document. The Xhariep District Municipality identified five strategic focus areas (SFAs) arising from the engagement between community, the elected leaders and municipal administration and interested stakeholders.

The SFAs are embedded within the Five Year Local Government Strategic Agenda which is a roadmap entailing developmental priorities and corresponding targets to be achieved by municipalities during this term (2006-2011); as well as the national 2010 electoral mandate. These are:

- To facilitate and support local municipalities in rendering effective services to communities
- To create value and make a difference, everywhere we engage.
- To better the lives of the Xhariep District community
- Promote Public Private Partnership.
- Create a safe healthy environment, pro- active risk disaster management.

The MTREF budget is allocated against these strategic focus areas at a municipal level. Corporate objectives with measurable key performance indicators (KPIs) and targets are identified. The municipal planning processes undertaken at directorate and sub-directorate levels yield objectives with indicators, targets, and resource allocation (includes the budgets) at these various levels.

The structures of the revised IDP Strategic Priorities of Xhariep District Municipality for the Planning Cycle 2013/2014 are summarized as follows:

Rank	Development Sector
1	Agriculture
2	Manufacturing
3	Construction and utilities (Energy and Water)
4	Mining
5	Tourism
6	Social
7	Governance and Finance
8	Environmental
9	Overall Economy
10	Infrastructure Transport and Communication

The implementation of the SDBIP is categorised in terms of votes as prescribed by the MFMA. The votes indicate a budget allocation for Core Administration outlined below:

Core Administrative Votes
Office of the Municipal Manager
General Council
Planning and Social Development
Budget and Treasury
Corporate Services

5.1 Planning and Development Department

Project Description 2013/2014	Amount
IDP Review and printing of the document	R 150 000
(Development of sector plans)	K 150 000
Disaster Management Plan Review and printing of the document	R40 000
(A plan to assist in preventing and dealing with disasters)	K40 000
Arts and Crafts centre machinery	R 400 000
(To purchase materials for the arts and crafts centre)	K 400 000
Upgrading of internal streets (EPWP Grants)	R 1 000 000
(Stipends for the labourers working on various projects)	K 1 000 000
Environmental Management Projects (Environmental Health)	D 200 000
(Food quality, water quality monitoring plan, health surveillance of premises e.t.c for the district)	R 300 000

Project Description 2013/2014	Amount
LED Trainings	R 100 000
(To provide skills to the local communities as well as enhanced development of SMME's)	K 100 000
Health and Hygiene education	R 20 000
(Greening and cleaning campaigns, hygiene education in schools and Rift Valley within the district)	N 20 000
LED Projects	R 500 000
(To improve economic development in the District)	K 300 000
Tourism Awareness Programme	R 20 000
(To improve tourist attraction in the district)	IV 20 000
District Forums	R 40 000
(To promote capacity development and improve on knowledge among members of the municipalities in the district)	N 40 000
Disaster Management Contributions	D EO 000
(Helping communities with disaster relief programmes – Houses, food parcels,blankets)	R 50 000
Support for SMME'S	
(Small business has been recognized for its role in terms of reducing unemployment and poverty; it also plays a significant role	R 50 000
in entrepreneurship growth and development.)	
Profiling of Roads in the district(RRAMS)	R 1 296 000
Disaster Trainings	R 10 000
Establishment of the Disaster management centre	R 300 000

Total R 4 226 000

5.2 General Council

Project Description 2013/2014	Amount
Public Participation	R 20 000
(to give community a say / opportunity on the affairs of the Municipality)	
Youth Development Programmes	
(To arrange and coordinate youth programmes that help young people to be exposed to Job opportunities, establish businesses	R 150 000
and be provided studying opportunities)	
Special Programmes	
(Programmes aimed at providing immediate relief and means of support to the youth, the elderly and society in general. These	R 80 000
include the charitable activities)	
Intergovernmental Relations	R 10 000
(Programmes aimed at fostering relations with other spheres of government)	N 10 000
Social Responsibility Fund	R 200 000
(Mayor's outreach programmes that include Bursaries and Donations)	N 200 000
Mandela Day celebration	R 20 000
(A Nationwide programme aimed at volunteering services to the communities)	N 20 000
District AIDS Council	D 25 000
(To build up synergy in the fight against HIV/AIDS in the District – most common message being prevention)	R 25 000
MSIG Funded Activities	R 222 500
Total	R 727 500

5.3 Budget and Treasury

Project Description 2013/2014	Amount
Compilation of AFS 2012/2013 (A statutory financial reporting standards requirement – Good Governance)	R 222 500
Total	R 222 500

5.4 Corporate Services

Project Description 2013/2014	Amount
Land(To procure the land on which the municipal offices are built)	R 650 000
FA Contribution/ Motor Vehicles	R 250 000
FA Contribution / Motor Vehicles	R 500 000
FA Contribution / Motor Vehicles	R 500 000
	2 222 500
MSIG(ICT Master Planning)	R 222 500
Total	R 2 122 500

5.5 Municipal Manager

Project Description 2013/2014	Amount
MSIG (Internal Audit Software)	R 222 500
Total	R222 500

6.3 Quarterly projections of service delivery targets and performance indicators for each vote

The service delivery targets and performance indicators below contain the capital service delivery targets and performance indicators as well as the operational service delivery targets and performance indicators for each department and the Council. The service delivery targets and performance indicators contained herein are linked to the municipality's performance management system and when the municipality reviews and amends the performance management system, must also make changes to the service delivery targets and performance indicators of the SDBIP.

By cascading performance measures from strategic to operational level, both the IDP and the Service Delivery and Budget Implementation Plan (SDBIP), form the link to Employee Performance Appraisal System. This ensures that performance management at the various levels relate to one another, which is a requirement of the Municipal Planning and Performance Regulations and the MFMA. The MFMA specifically requires that the annual performance agreements of senior managers must be linked to the SDBIP of a municipality and the measurable performance objectives approved with the budget (circular 13 of the MFMA). The SDBIP in essence becomes the main operational tool to translate and manage the performance objectives as formulated in the IDP. The following diagram illustrates the process.

Council

- IDP
- Monthly Reports
- Mid-year performannce assessment
- Annual Report

SDBIP

- Service delivery targets
- Performance Indicators
- Revenue and Expenditure by vote

Approval of Service Delivery and Budget Implementation Plan

Being a management and implementation plan (not a policy proposal) the SDBIP it is not a requirement that the council must approve the

SDBIP. According to Section 53 of the MFMA, the Executive Mayor is expected to approve the SDBIP within 28 days after the approval of the

budget. This section requires him or her to take all reasonable steps to ensure that the SDBIP is approved within 28 days. In addition, the

Executive Mayor must ensure that the revenue and expenditure projections for each month and the service delivery targets and performance

indicators as set out in the SDBIP are circulated or made public within 14 days after its approval.

Xhariep SDBIP was concluded along with the IDP and Budget 2013/2014. All levels of the SDBIP have been formally submitted by the Municipal

Manager to the Executive Mayor within 14 days after Budget Approval and subsequently approved by the Executive Mayor within 28 days

after budget approval. Therefore, the Executive Mayor will circulate these planning, monitoring and evaluation tools to the general public

within 14 days after his approval.
